TACOMA GENERAL HOSPITAL

July 25, 1974

The Board of Directors
Tacoma General Hospital
Tacoma, Washington

Gentlemen:

Because I will be retiring from the hospital on August 4, 1974, I am herewith tendering my resignation as President and Assistant Treasurer of the corporation to take effect on the same date.

My relationship with Tacoma General has extended over a little more than 24 years and during the past 15 years it has been my pleasure to serve as Administrator and Chief Executive Officer. This is an honor which I do not view lightly. I especially prize the confidence which has been extended to me by the members of the Board of Directors over these years and the aid and counsel afforded me. It has been of great satisfaction to pursue the established goals to provide for this community the highest quality of medical care combined with a humanistic approach.

Tacoma General continues to evidence great qualities of leadership and is recognized for quality of medical care. It is now entering into a new era with new problems, but, with active Board participation and expressed eagerness on the part of employees and Medical Staff to meet new medical approaches, there should be no fear for the future.

I shall always cherish the memory of my associations with the Board, the Medical Staff, and the entire personnel of the Tacoma General Hospital.

Sincerely yours,

W. L. Huber
President
